NLU+ Coursework 1: Recurrent Neural Networks

<Samuel's exam number>   B161564

Introductory Remarks

Something about our project the markers should be aware of.

Question 2: Language Modelling

a) Finetuning of hyperparameters

- Load finetuning.csv into table
- First sort by learning rate, then by hdim
- Report best adjusted loss
- Report how each parameter seems to affect loss
- Report what you expected the results to be like and why
